**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 05/11/09 has been entered.

***Allowable Subject Matter***

2. The indicated allowability of claim 46 is withdrawn in view of the newly discovered reference(s) to Gatts (US 3,411,500). Rejections based on the newly cited reference(s) follow.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 46 is rejected under 35 U.S.C. 102(b) as being anticipated by Gatts (US 3,411,500).

Gatts teaches the following:

46. (Previously Presented) A garment with a crotch for covering at least part of the lower half of a body (column 2, lines 7-18), comprising:

a band-like pressure portion at least has, at a front side portion corresponding to the front side of a thigh (50a, 66, 64, 62), a thigh front side pressure portion extending continuously along the front side obliquely from a waist portion, along a front outer hip portion, to the ankle (see figure 1), and, at a rear side portion corresponding to the rear side of the thigh (52b, 56b), a thigh rear side pressure portion formed obliquely from above to below the rear side portion (figure 2) and a second thigh rear side pressure portion (72) extending from an upper portion to a lower portion of said thigh (figure 2), such that the first and second thigh rear side pressure portions on said thigh cross each other (figure 2, identifiers 72 and 56b, 52b).

***Allowable Subject Matter***

5. Claims 1, 3, 6, 28, 35-43, 45 and 47 are allowed.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and can be found cited in PTO-892 form submitted herewith.
